To Whom It May Concern,

I am writing to highly recommend Muyang Li for any front-end or full-stack development position. I had the pleasure of working with her at MealPlanIQ in the spring of 2024, where she consistently demonstrated a high level of expertise, dedication, and professionalism.

Ms. Li is a highly skilled developer with extensive experience in Python, Angular, and Tailwind CSS. She also has a deep understanding of Python, utilizing it effectively for back-end development and data processing tasks. Her proficiency with Angular is outstanding, allowing [her/him/them] to build dynamic and responsive user interfaces that meet both functional and aesthetic requirements. Additionally, her mastery of Tailwind CSS has enabled our team to streamline the design process, creating visually appealing and highly customizable web applications with ease.

Beyond her technical capabilities, Muyang stands out for her strong interpersonal skills. She is a true team player, always willing to collaborate and support colleagues. Her ability to communicate complex technical concepts in a clear and concise manner has been invaluable in ensuring that all stakeholders, regardless of their technical background, are well-informed and aligned.

Moreover, Muyang consistently brings a positive attitude to the workplace, which fosters a collaborative and productive environment. She is not only a strong communicator but also a proactive problem solver who is always eager to take on new challenges.

In summary, Muyang is a remarkable developer who possesses a rare combination of technical proficiency and interpersonal skills. I am confident that she will be a valuable asset to any organization.

If you have any questions or would like further information, please do not hesitate to contact me.

Sincerely,

Warren Todd
